PROFESSIONAL EXPERIENCE

TRIBU LIVING

Remote

Jr Web Developer

Feb 2024 - Present

- Contributed to the frontend development by creating multi-state forms using Wix and Velo.
- Developed a responsive one-page website from scratch in collaboration with a designer, utilizing React.
- Integrated whatsapp sdk and webhooks into the web application to improve internal communication with the administration personnel.
- Connecting a service to evaluate client credit history through an API automates the rent process by streamlining the evaluation of potential renters. This not only saves time and resources but also enhances the efficiency and accuracy of the rental process.

HARDWARE STORE "EL PRECIO JUSTO"

Remote

Internship project for a local store

Sep 2023 - Dec 2023

- Contributed as a key member of a dynamic web development team, adeptly employing SCRUM methodology. Facilitated daily stand-up meetings, fostering collaboration and ensuring alignment with project goals.
- Led the design and development of an e-commerce website, showcasing expertise in HTML, CSS, JavaScript, and Bootstrap.
- Implemented key functionalities, optimizing database performance using Java, Spring Boot, and SQL database technologies.

MARIMAR NEGRETE POST-SURGICAL

Guadalajara, Jal

Physical Therapy in Dermatology

Jun 2022 - Sep 2023

- Specialized care for patients in vulnerable conditions.
- Ability to effectively and quickly address challenging situations, including post-surgical and aesthetic complications, through an analytical approach and precise solutions.
- Assertive communication skills when collaborating with plastic surgeons and patients.

BR MEDICA

Guadalajara, Jal

Sports Physical Therapist

May 2020 - Jun 2022

- Demonstrated strong adaptability, adjusting my treatment approaches and strategies to meet patients' changing needs.
- Had interns in my charge, promoting teamwork and multidisciplinary collaborations.

GENERATION MX

Java Full Stack Developer bootcamp

Guadalajara, Jal

Sep 2023 - Dec 2023

UVM

Bachelor of Physiotherapist with academic excellence, specialty in sports and dermatology physiotherapy.

Zapopan, Jal

2016-2021

PROJECTS

Markdown Previewer

- Crafted a React-based Markdown Previewer with seamless integration of an external library, enabling users to input markdown text and instantly visualize formatted content. The intuitive user interface enhances the editing experience, providing a streamlined tool for content creators.

Random Quote Machine

- Developed a quote generator that pulls content from an external API, featuring an intuitive and user-friendly interface. Implemented with React, the project also includes integrated buttons for automatic sharing on social media platforms.

Alura Geek Ecommerce

- Implemented GitHub as a version controller to optimize collaboration and change tracking in the project. I adhered to a work methodology that integrated Trello and Figma for the design of product pages.
- This project not only underlines my technical prowess, but also my ability to conceive and execute a dynamic and fluid user experience in an autonomous e-commerce project.

Encrypter Game

- Developed a game with a simple but responsive and adaptable design. My approach highlighted my ability to write efficient and functional JavaScript code, addressing game logic, text encryption, and DOM manipulation.

ADDITIONAL INFORMATION

- Technical Skills: JavaScript, React, HTML, CSS, JQuery, Sass, Bootstrap, Tailwind, Figma, Git, GitHub, GitLab, MySql, SpringBoot, Java, Next.js, VSCode, Postman, Velo,
- Certifications: JavaScript Algorithms and Data Structures (2023), Responsive Web Design (2023)
