

Lilia Salazar

Frontend Engineer | Angular, React, Next.js & TypeScript

lilijusatre@gmail.com | [LinkedIn](#) | [GitHub](#) | lilijusatre.github.io/profile

Frontend Engineer building web applications, dashboards, onboarding flows, and marketing pages. Experience delivering agency workflows, role-based permissions, and interfaces for employers and applicants, with additional work on backend code, databases, and scripts.

EXPERIENCE

Espiralapp | Frontend Engineer

Oct 2025 - Present | Full-time

- Redesign and implement the web application dashboard, and develop new user onboarding flows.
- Build marketing landing pages with responsive layouts and animations.
- Develop frontend features using Angular, Next.js, TypeScript, JavaScript, and React; contribute to backend tasks, database work, and scripts.

LIV | Frontend Engineer

May 2025 - Present | Part-time Contractor

- Implemented a complete agency management section with role-based permissions, allowing administrators to view operations across their agency.
- Contributed to Empli, an employment profile analysis platform with a dashboard for employers and a separate application for applicants.

EARLIER DEVELOPMENT EXPERIENCE

VIVE PROPERTIES | Web Developer Feb 2024 - Mar 2025

Built a chatbot using Node.js, SQL, and TypeScript; integrated WhatsApp SDK and webhooks; developed application features with Velo by Wix and JavaScript.

Freelance | Jr Software Engineer Apr 2024 - Jun 2024

Redesigned and implemented a client landing page with React and TypeScript.
